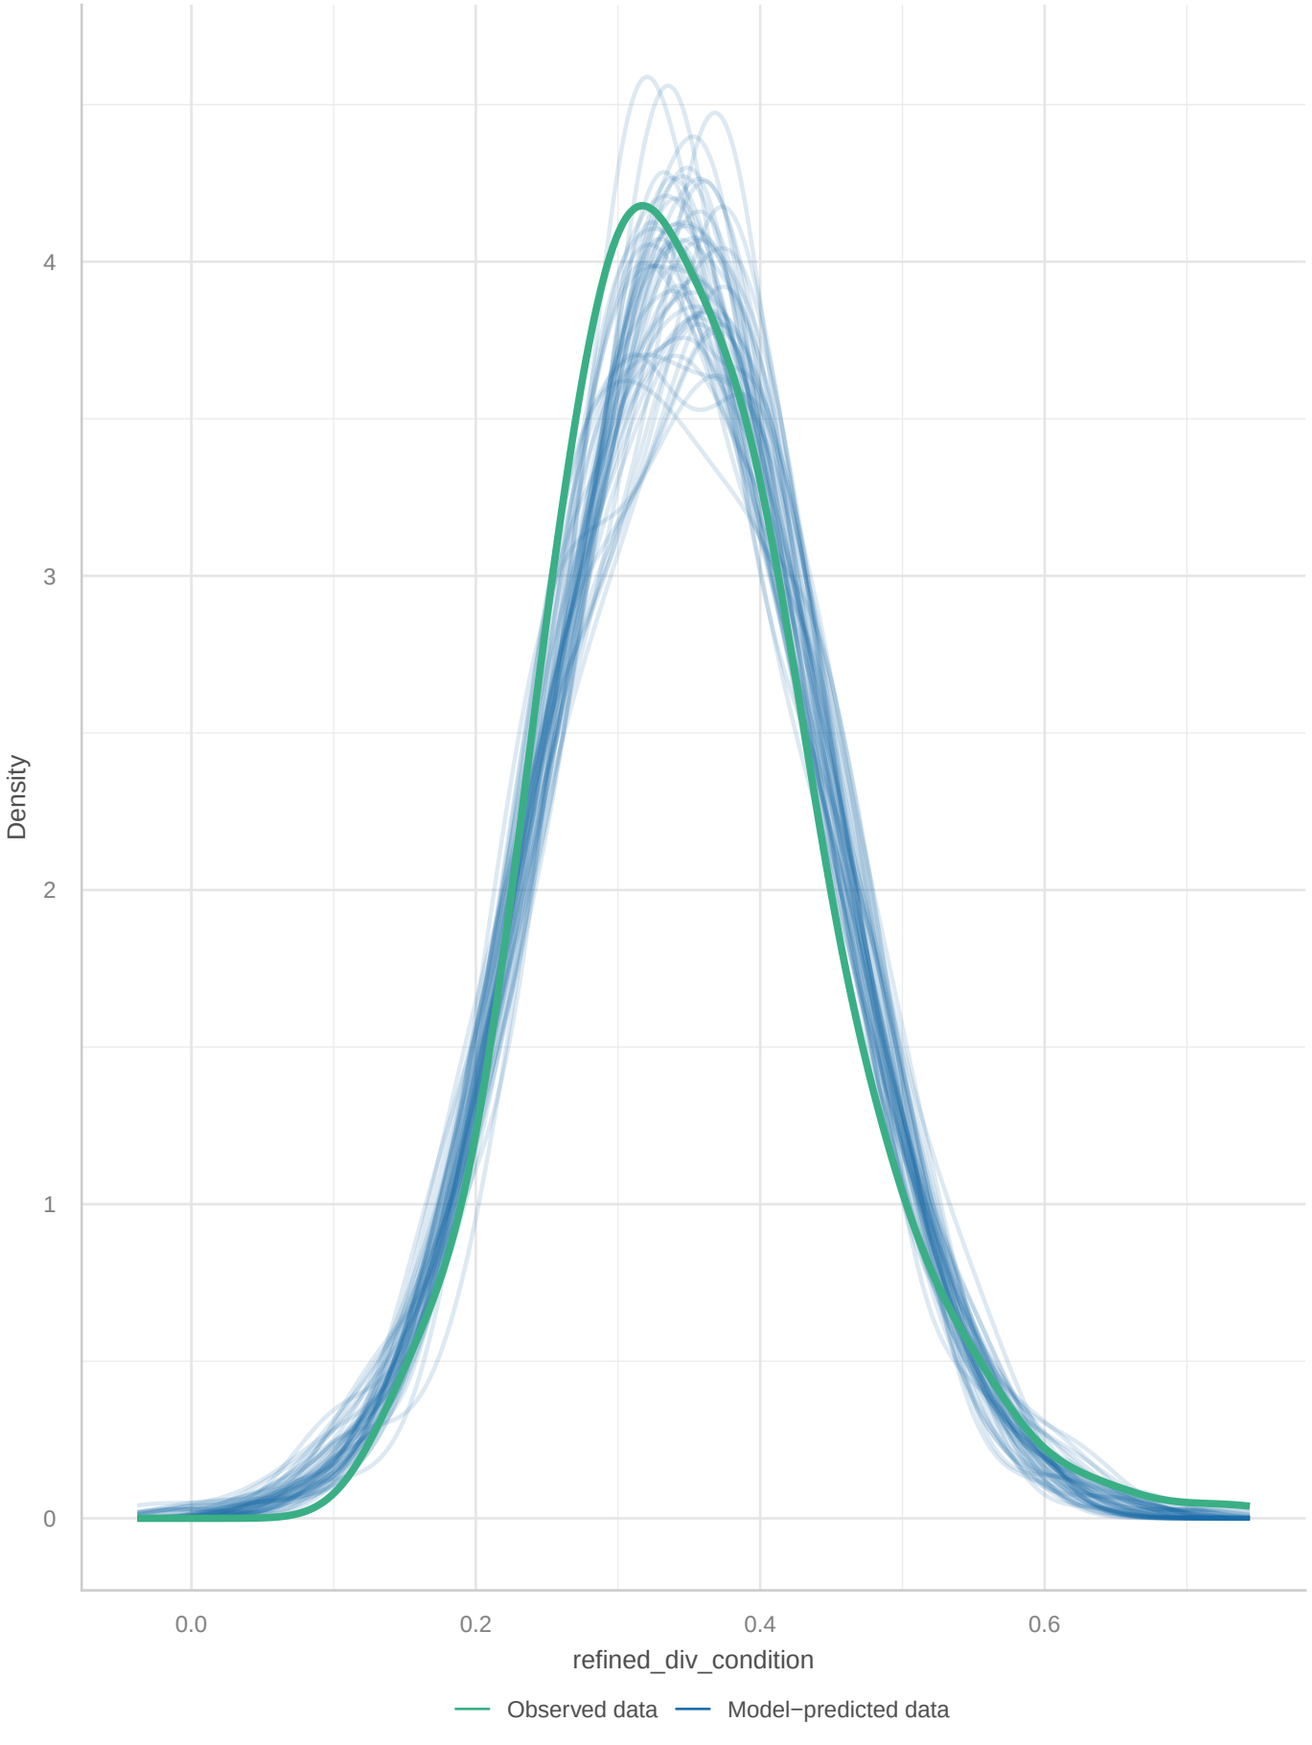
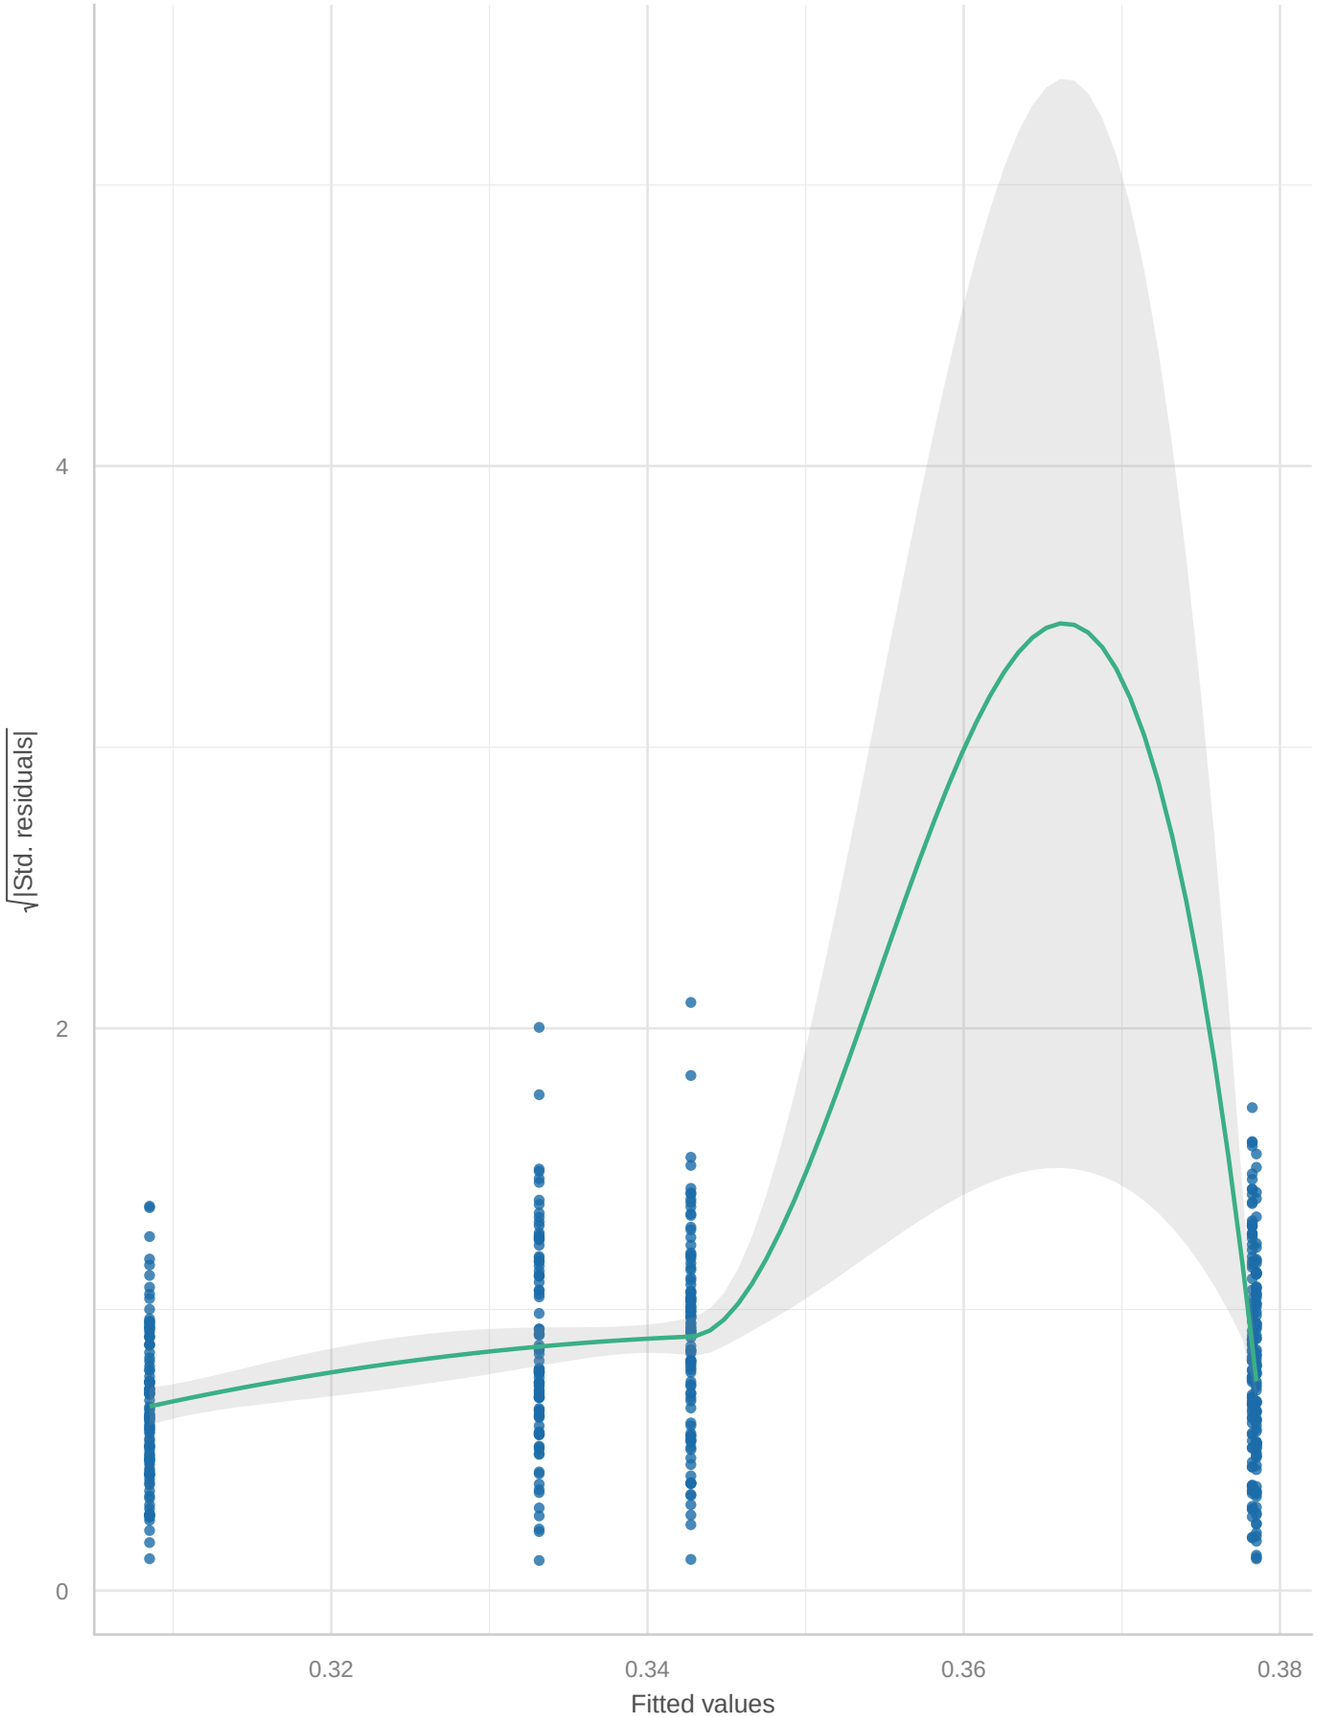
Posterior Predictive Check

Model−predicted lines should resemble observed data line



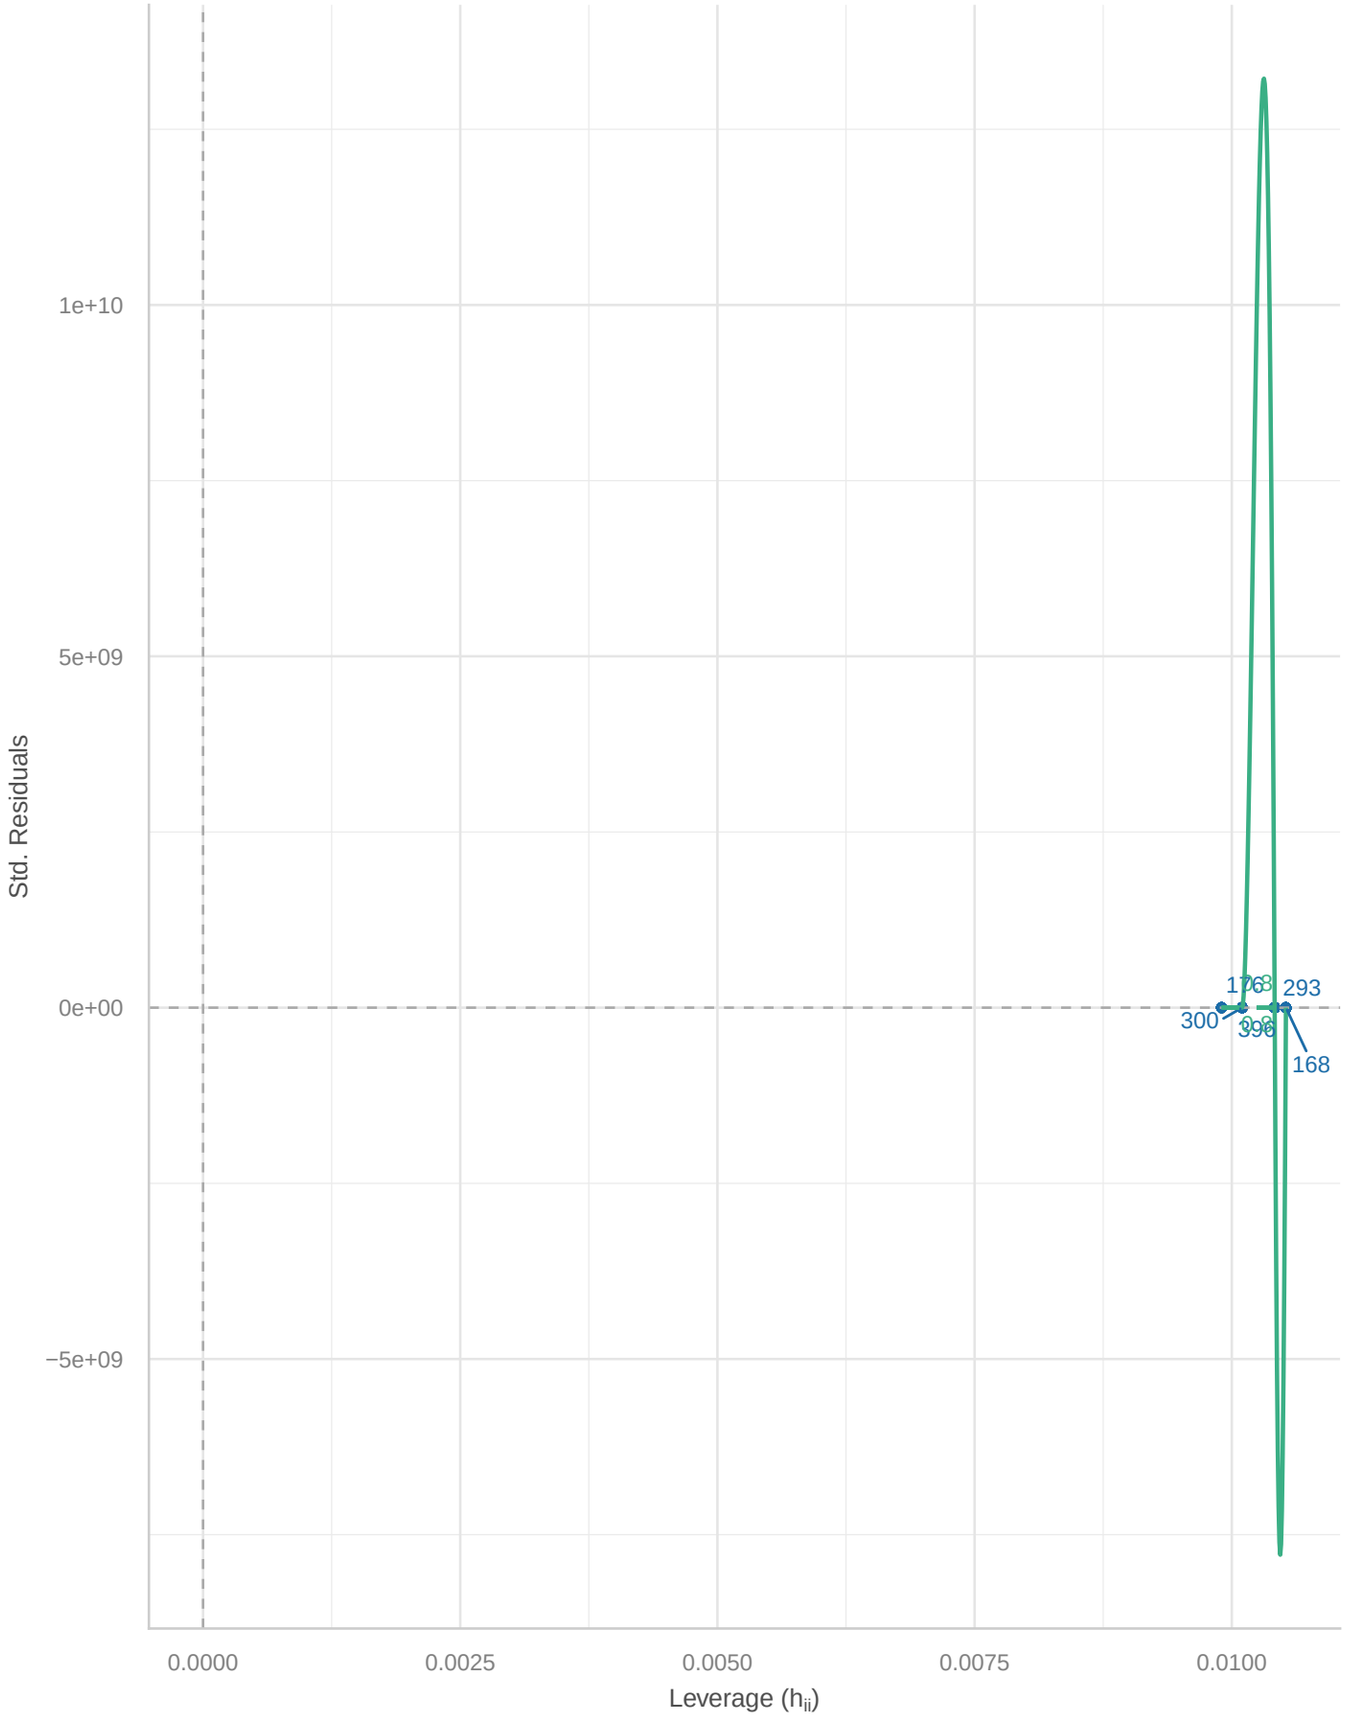
Homogeneity of Variance

Reference line should be flat and horizontal



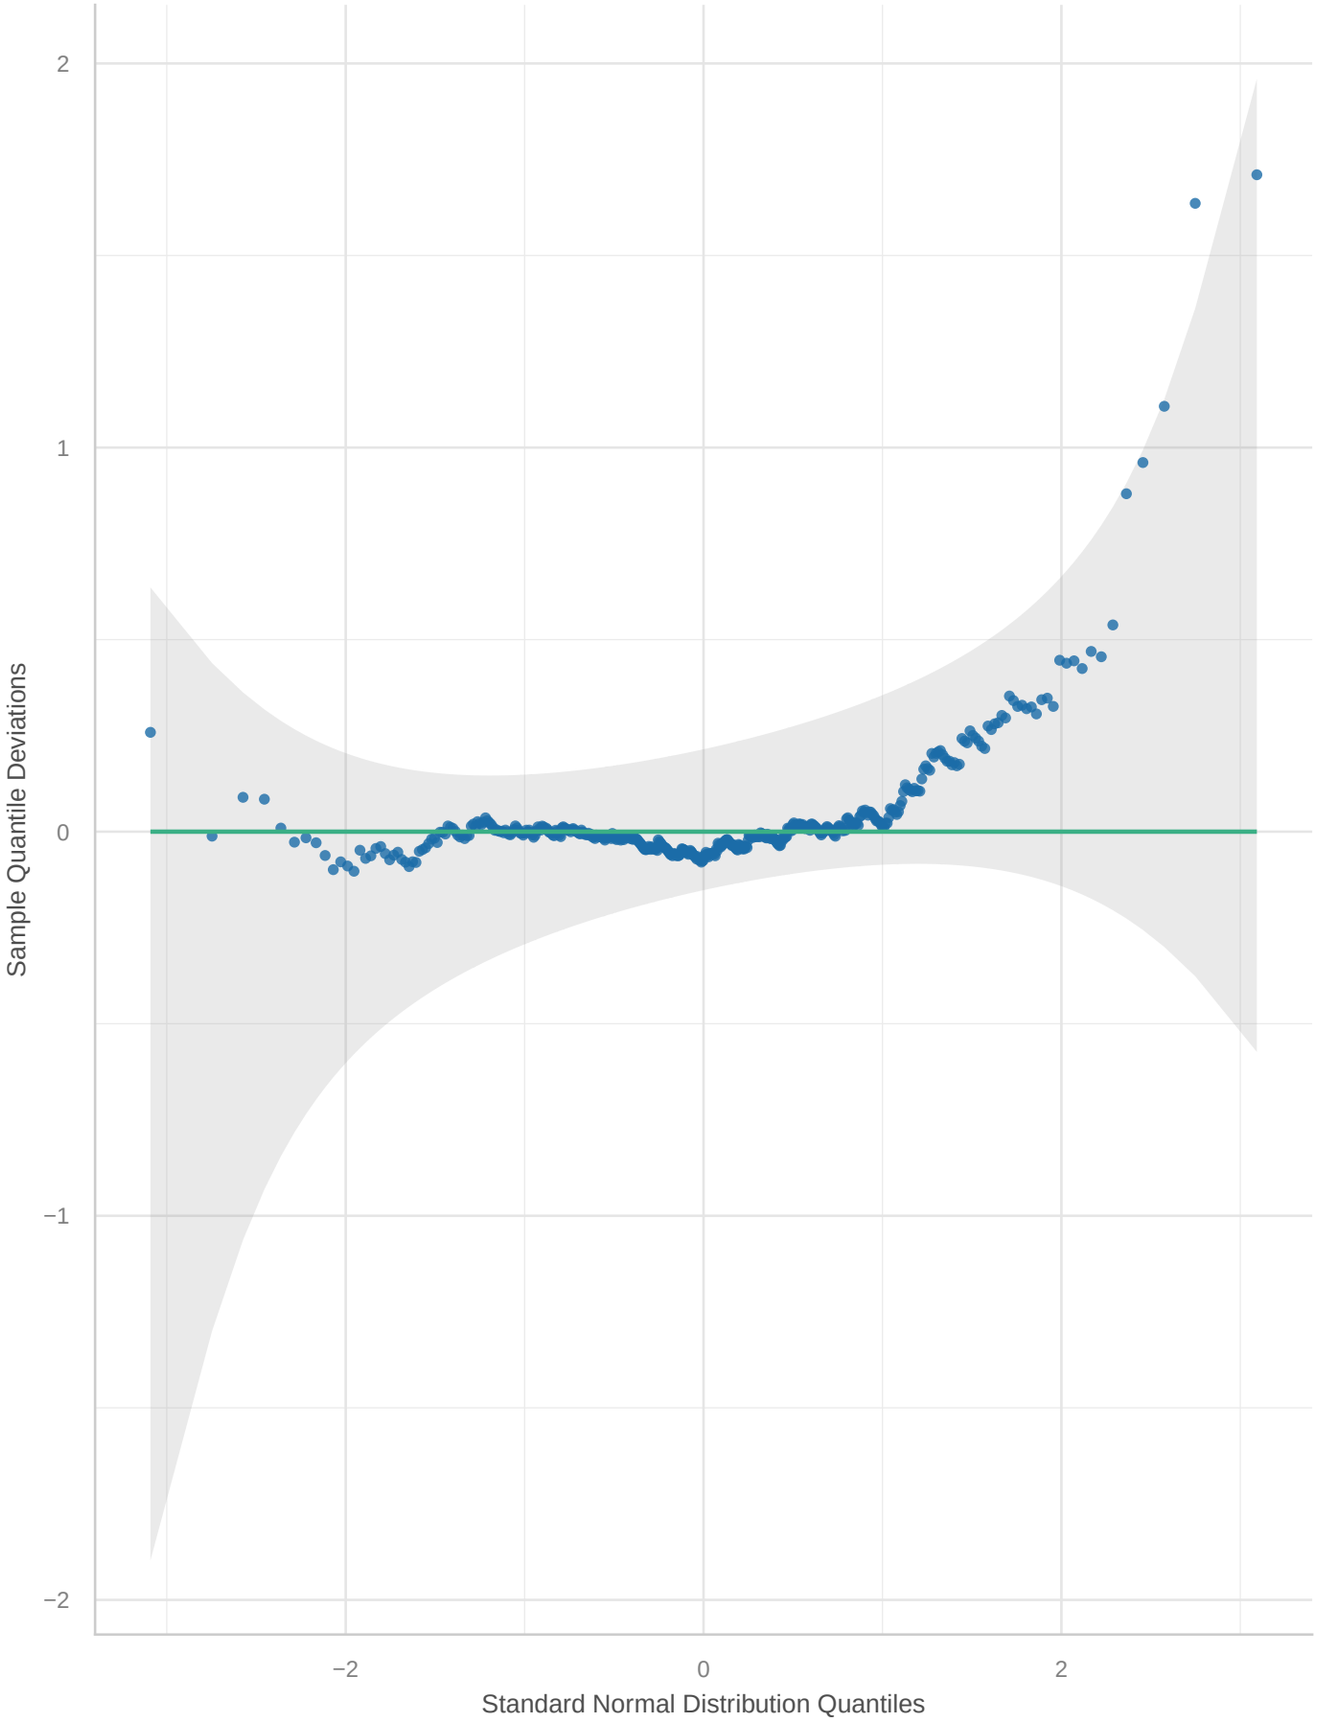
Influential Observations

Points should be inside the contour lines



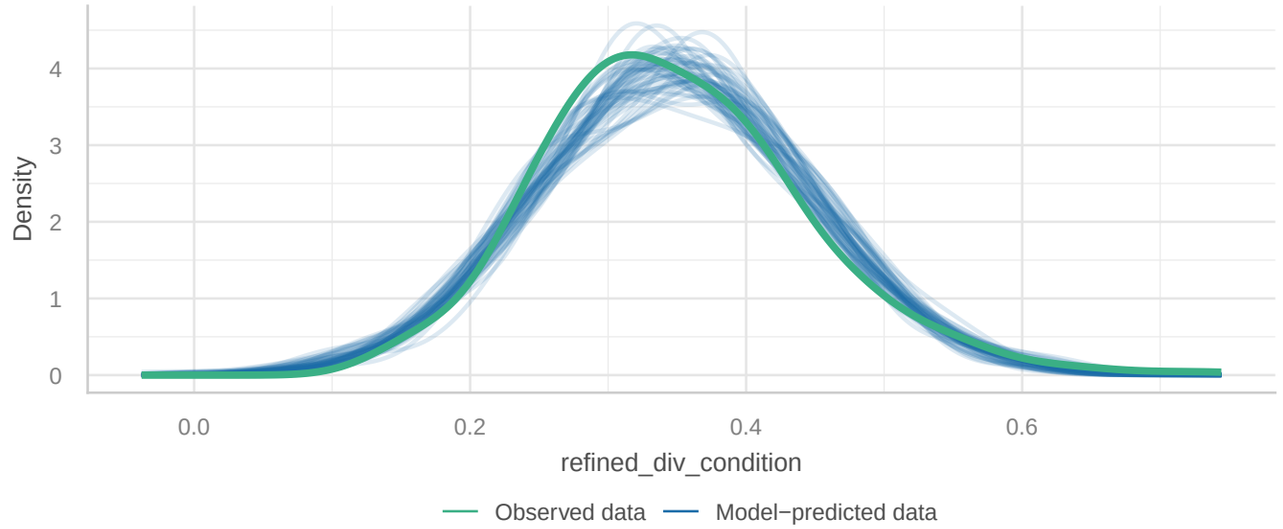
Normality of Residuals

Dots should fall along the line



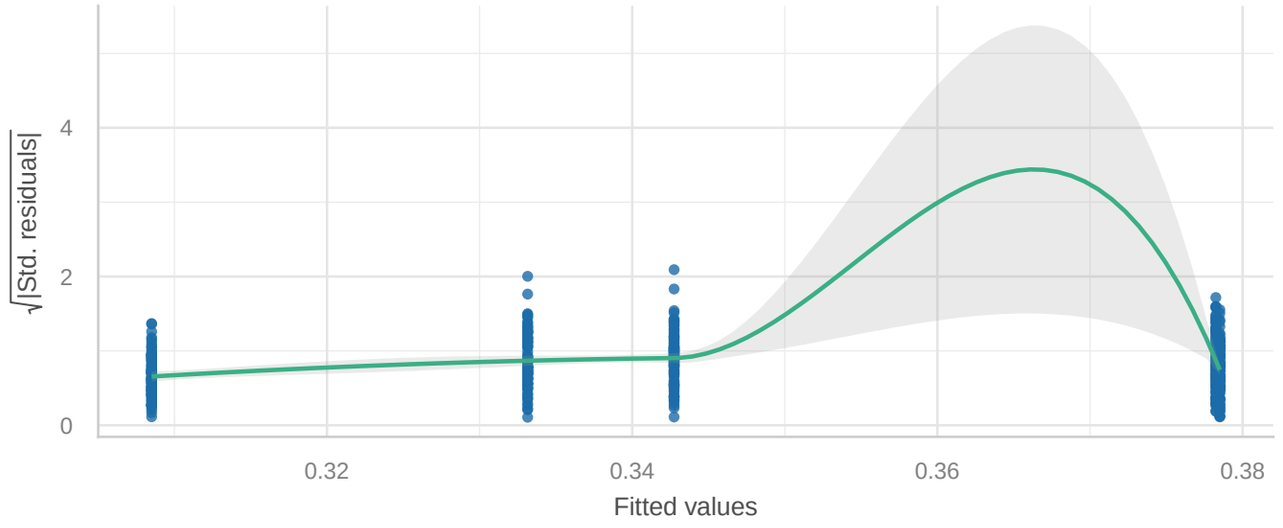
Posterior Predictive Check

Model−predicted lines should resemble observed data line



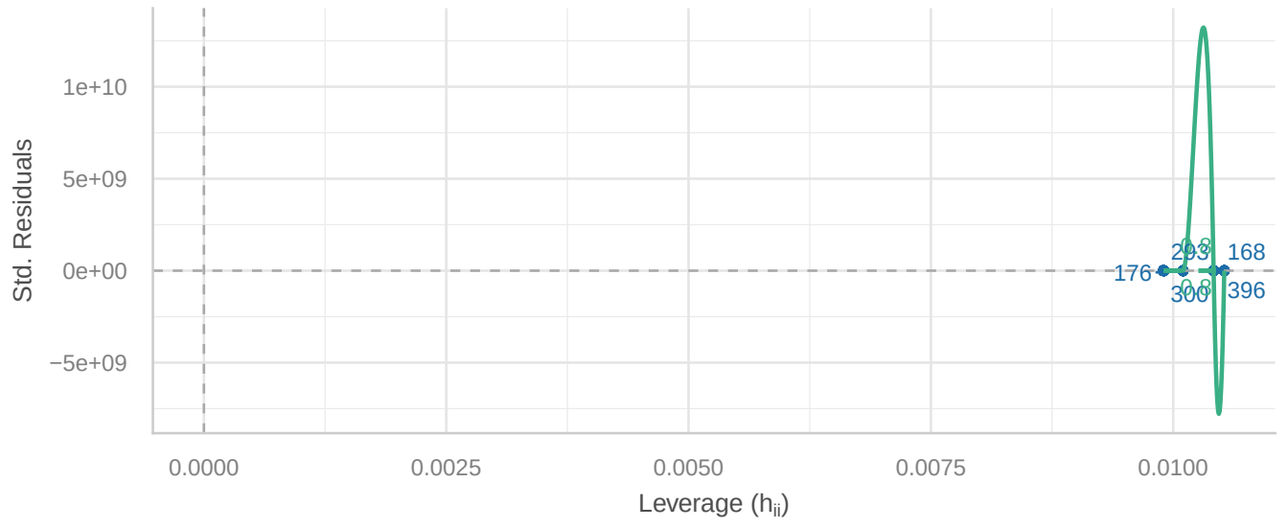
Homogeneity of Variance (Original)

Reference line should be flat and horizontal



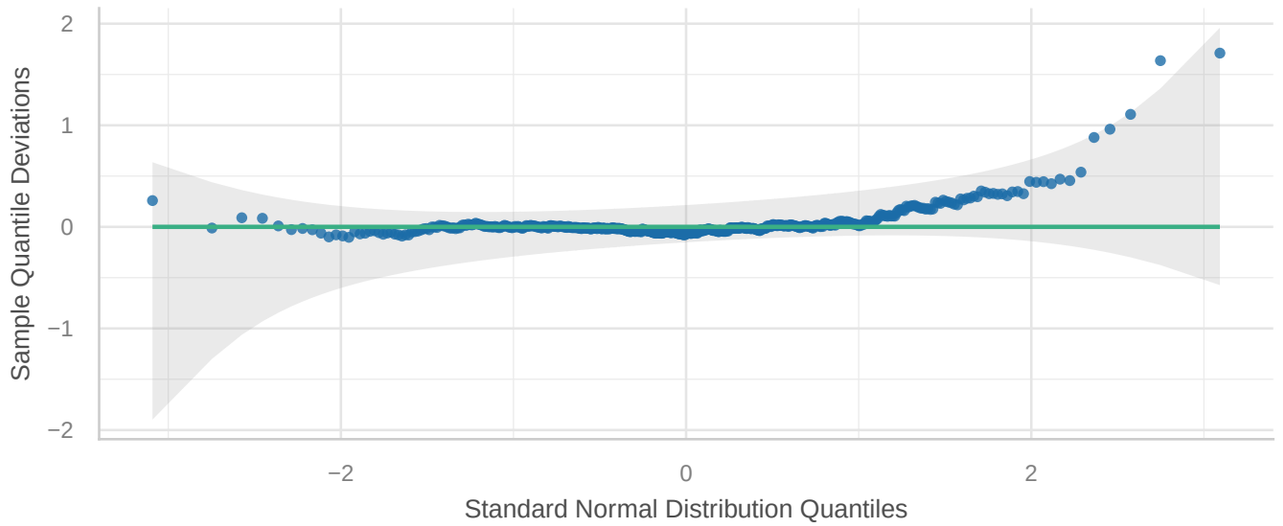
Influential Observations

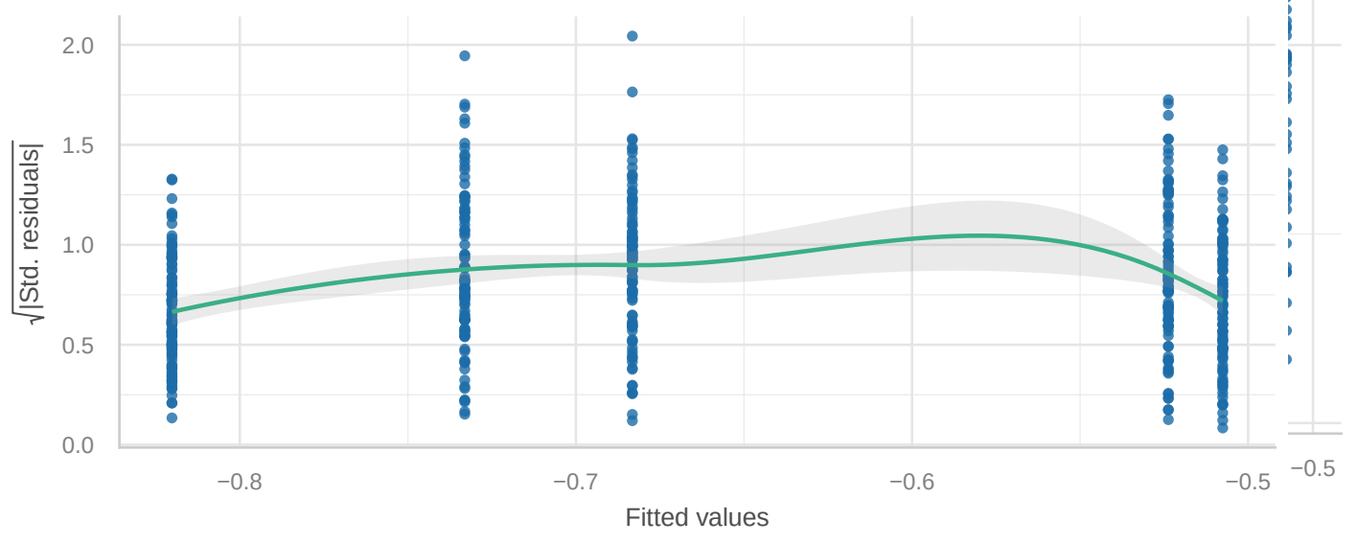
Points should be inside the contour lines



Normality of Residuals

Dots should fall along the line



Homogeneity of Variance (Logit−Transformed)


Reference line should be flat and horizontal
